## Performance Instructions

$\frac{1}{4}$  – höher/tiefer

$\frac{1}{4}$  – note higher/lower

[**ff**]

Dynamik in eckigen Klammern bezeichnet die Energie der Klanghervorbringung. Die resultierende, reale Lautstärke ist meist sehr viel geringer, z.B. bei Rauschklängen

Dynamics in squared brackets refer to the energy of the sound production. Mostly the resulting real volume is much lower, e.g. in the case of noise sounds

Hartes Pizzicato mit Fingernagel

Hard Pizzicato with finger nail

Saiten mit der Hand abdämpfen.  
Klavier: im Instrument

Mute strings with the hand.  
Piano: inside the instrument

Fermaten kurz, normal, lang

Fermatas: short, normal, long

Strings

Bartók-Pizzicato

Bartók pizzicato

Pizzicato mit der linken Hand

Pizzicato with the left hand

Klang nur durch starkes Aufsetzen des Greifingers auf die Saite ohne Bogen

Sound only by stopping hard on the string without bow

Gleichzeitig „col legno battuto“ und pizz mit der linken Hand

Simultaneously „col legno battuto“ and Pizzicato with the left hand

Bogenbewegung als Schleife: Den Übergang von längs und quer gestrichener Saite und der dabei entstehenden Klangänderung sehr weich überblenden

Bowing as a bow/loop: The transition between lengthwise and crosswise bowing and its changes of sound. As smooth as possible

Gepresster Bogen. Noramlerweise ein kurzes Knarren wie ein **fp**-Akzent

Pressed bow. Normally a short creaking sound like a **fp**-accent

Mit gepresstem Bogen längs der Saite rattern

Rattling along the string with pressed bow

Hinter dem Steg auf der angegebenen Saiten

Behind the bridge. Attend the notated strings

estr. pont

Estremo al ponticello, extrem am Steg streichen. Scharfer Klang mit starkem Oberton- und Rauschanteil. Die Obertöne so bruchlos wie möglich einblenden.

Estremo al ponticello, Bowing extremely near the bridge. A very sharp sound with a lot of harmonics and noise. Make the transition to harmonics as smooth as possible.

Die notierten Flgeolettöne (ad lib. so hoch wie möglich, aber deutlich) entstehen ohne zusätzlichen Griff alleine durch exakte Bogenposition am Steg.

The notated harmonics (ad. lib., as high as possible, but distinct) result only from exact bowing position at the bridge, not from stopping with the left hand.

SUL pont

Direkt AUF dem Steg streichen, tonloses Rauschen. Alle nichtgespielten Saiten mit der linken Hand abdämpfen

Bowing directly ON the bridge, toneless bowing. Mute all not-played strings with the left hand

Stichnoten werden dabei gegriffen und klingen kaum hörbar als bloße Färbung des Rauschens, („Tonschatten“)

Cue notes are stopped and sound scarcely audible as colouring of the noise (“tone shadows”)

pizz / ▽

### Klavier

Saite im Klavier direkt am Steg leicht abdämpft.  
Es resultiert eine deutliche, aber etwas dumpfe  
Tonhöhe, glockenartig.

Saite im Klavier mit Finger / Gitarrenplektrum  
anzupfen

Mit Gitarrenplektrum entlang der Saite rattern

### Piano

Mute the string inside the piano directly at the  
bridge: a slightly muffled, but clearly pitched  
sound, like a bell.

Plug string inside the piano with finger / guitar  
plectrum

Rattling along the string with a guitar plectrum.

**Musical Notation:** The score consists of three staves. The Violin (Violine) staff starts with dynamic ***fff* sempre**. The Cello (Violoncello) staff follows with **pont** and **{c.l.b.}**. The Piano (Klavier) staff begins with ***fff*** and an **X** mark. The tempo is indicated as  **$\text{♩} = 50 \text{ ca.}$** . Various performance techniques are marked throughout, including **senza vib. sempre**, **ord**, **scharf**, **pizz.**, **pont sub.**, **III arco**, and **5**.
